

# STU -DY IN PRA -GUE

FACULTY  
OF ARCHITECTURE  
CTU IN PRAGUE

## Faculty of Architecture, Czech Technical University (CTU) in Prague

**FA CTU** is the oldest, largest and most important institution providing bachelor's, master's and doctoral degree education in the field of architecture in the Czech Republic. In 2008 and in 2014 it expanded its traditional focus on architecture, urban design and spatial planning with new programs of industrial design and landscape architecture. It is also a prestigious institution focusing on research, scientific and artistic creative activities in these fields.

**PRAGUE** is one of the most beautiful cities in the world, a UNESCO heritage city. Its rich history, diverse architecture and wide variety of cultural and sports opportunities are basic characteristics of the Czech capital city. The FA CTU is located on the CTU campus, which is within walking distance from the Prague Castle in the direction of Vaclav Havel International Airport.

### **LIFE IN PRAGUE**

Prague is a perfect city for students. After your arrival, the CTU International Student Club helps you to get to know the city and the university. Mass transportation works perfectly and there are many shared traffic services to choose from in Prague as well. On top of that, there are many discounts for students not only for mass transportation, but also for many sports and cultural events. Another important positive of the Czech metropolis is its safety.

### **INTERNATIONAL OUTREACH**

Every year FA CTU sends a total of around 150 students to and from other universities through the Erasmus+ and other mobility Exchange programs. FA CTU is actively involved in the November Talks series, in the ATHENS, CEEPUS and EuroTeQ exchange programs and hosts a growing number of foreign guest lecturers and visiting professors.

FA CTU in Prague is also an active member of several international organisations such as the EAAE European Association for Architectural Education, AESOP Association of European Schools of Planning, ECLAS European Council of Landscape Architecture Schools, DOCOMOMO INTERNATIONAL and TICCIH. It takes part and hosts international workshops and conferences every year like the 2021 EAAE Annual Conference and General Assembly.

## STUDY PROGRAMS

In 2011 FA CTU moved into a beautiful new building, which gives it generous space for all its needs in its 13 study programs – 9 Czech language study programs in 3 fields and 3-degree levels, and 4 English language programs in 3 fields and 2-degree levels. With the FA CTU Ing. arch. diploma in Architecture and Urbanism, graduates are authorized to practice in all EU countries without any other professional licenses.

The master's degree is a two-year study program that develops the fundamentals acquired during the bachelor's degree in the same field. Master degree studies in English are subject to tuition fees. The tuition fee for master's studies is determined by the Rector of the CTU every year. Tuition fee per two semesters of one academic year was czk 132 000 in 2022 (price in EUR/USD according to the current exchange rate).

Master degree studies are offered in 3 programs:

- Architecture and Urbanism
- Landscape Architecture
- Design

The doctoral degree is a four-year study program that provides the opportunity to continue your master's degree education, to specialize and prepare for an academic and/or researcher track. Doctoral degree studies in English are free of charge with an administrative fee. Doctoral degree studies are offered in Architecture and Urbanism in 5 tracks:

- Architecture, Theory and Creation
- Urban Design and Spatial Planning
- History of Architecture and Monument Conservation
- Architecture, Building and Technology
- Landscape Architecture

## ACCOMODATION

CTU offers its international students affordable living in dormitories. Currently there are 7 dorms available where you can live in a room with your roommates all year long. Most of the dormitories are located near the main CTU Dejvice Campus, the rest is located further in the city and is accessible by public transport.
