

1st SEMESTER - WS			disciplines
Design Studio - Building Complex (Architectural design studio)	Studio	7	Architecture and urban design
Digital Modelling	Studio	2	Representation of architecture and environment
Technical Infrastructure	Studio	2	Physical-technical and installation disciplines for architecture
Building Theory V		2	Structural analysis and design of architecture
Landscape Architecture I - Introduction		3	Architecture and urban design
Building Technology and Management II		3	Technology disciplines for architecture and building production
Technical Infrastructure II - Urban Utilities		3	Physical-technical and installation disciplines for architecture
Planning I - Urban Planning		3	Urban and regional planning
Computer Aided Designed III		2	Representation of architecture and environment
Modern Architecture		2	
Czech Language for Foreign Students 1		0	
		29	

2nd SEMESTER - SS			
Design Studio - Independent Study - (Monument care)	Studio	9	Architecture and urban design
Architectural Preservation	Studio	2	Theories and techniques for architectural restoration
History of architecture III/IV	Monodisciplinary Course	2	Historical disciplines for architecture
Urbanism IV - Design	Monodisciplinary Course	3	Urban and regional planning
Urbanism II - History	Monodisciplinary Course	2	Historical disciplines for architecture
Load-Bearing Structures V	Monodisciplinary Course	2	Structural analysis and design of architecture
Monument Preservation Theory and Practice	Monodisciplinary Course	3	Theories and techniques for architectural restoration
Ecology II	Monodisciplinary Course	2	Physical-technical and installation disciplines for architecture
Law	Monodisciplinary Course	2	Economic, social, legal disciplines for architecture and urban planning
Economics	Monodisciplinary Course	3	Economic, social, legal disciplines for architecture and urban planning
Landscape Architecture III - Technology	Monodisciplinary Course	2	Technology disciplines for architecture and building production
		32	

note:  
 compulsory courses  
 electives

## Discipline requirement IT law control

IT law	disciplines	
4	Historical disciplines for architecture	
4	Structural analysis and design of architecture	
12	Architecture and urban design	
4	Urban and regional planning	
4	Technology disciplines for architecture and building production	
4	Physical-technical and installation disciplines for architecture	
4	Representation of architecture and environment	
4	Theories and techniques for architectural restoration	
4	Estimation disciplines for architecture and urban planning	taught at PoliMi (2nd year)
4	Economic, social, legal disciplines for architecture and urban planning	taught at PoliMi (2nd year)
